CHAIRMAN'S REVIEW

I hereby submit this review report, prepared in accordance with Section 192 of the Companies Act, 2017, for the financial year ended June 30, 2026, to the valued stakeholders of **Buxly Paints Limited** (the "Company"). This report reflects the performance of the Board of Directors in fulfilling its governance responsibilities and guiding the Company toward its strategic objectives.

The Board of Directors remains committed to a sound governance framework, effective risk management, and strong internal controls. In line with the Code of Corporate Governance, 2019, the Board ensured adequate representation of non-executive and independent directors, strengthening transparency and accountability across decision-making.

The Board is supported by two committees:

1. **Audit Committee**
2. **Human Resources Committee**

Both committees, operating under defined terms of reference, actively supported the Board and reported regularly in compliance with governance requirements.

An annual evaluation of the Board was conducted and confirmed that the Board continued to perform effectively, providing strategic oversight during a year of significant operational and financial challenges. While the Company's financial results for the year were disappointing, the Board maintained close oversight of management's response to the prevailing conditions.

The Board has institutionalized regular reviews of the Company's objectives, strategies, and performance, working with management, auditors, and consultants to ensure timely guidance and oversight. Management, under the supervision of the Board, remained responsible for day-to-day operations and demonstrated resilience by ensuring business continuity and safeguarding employees and stakeholders in a challenging environment.

Looking ahead, the Board reaffirms its commitment to providing direction, supporting management, and adhering to the principles of good corporate governance to drive sustainable growth and long-term value creation.

On behalf of the Board of Directors, I extend sincere appreciation to the management team, employees, creditors, vendors, and our valued shareholders for their trust and continued support.

Mr. Shamshad Ali

Chairman

DIRECTORS' REPORT

The Directors of the company submit the Annual Report of the Company along with the Audited Accounts for the year ended 30 June 2026. Financial Results are as follows:

2026

Financial Results:

(Rs.000's)

Loss before taxation	28,221
Taxation	(6,489)
Loss after taxation	(34,710)
Loss per share	(24.10)

MACROECONOMIC REVIEW

The economic environment in FY2026 showed notable improvement, with real GDP growth accelerating to 3.7%, the current account moving into surplus, and the fiscal deficit narrowing significantly. The prolonged Middle East conflict, however, kept global energy prices elevated, contributing to renewed inflationary pressure late in the year and keeping the policy rate steady at 11.5%. Consumer demand and industrial pricing conditions remained subdued despite the improving macro backdrop.

BUSINESS PERFORMANCE REVIEW

During the year under review, the Company recorded net sales of Rs. 519.11 million compared to Rs. 587.14 million last year, reflecting weaker demand and competitive market conditions. Gross profit decreased to Rs. 90.68 million from Rs. 111.88 million on account of the lower sales base. Distribution, selling and administrative expenses increased to Rs. 133.52 million, compared to Rs. 107.03 million in the previous year. The Company reported a net loss after tax of Rs. 34.71 million, equivalent to a loss per share of Rs. (24.10).

FUTURE OUTLOOK

While macroeconomic conditions are showing signs of stabilisation, elevated fuel prices and cost pressures continue to affect consumer demand and distribution costs. Management remains cautiously optimistic about a gradual return to profitability and is focused on improving operational efficiencies, strengthening market presence and increasing the contribution of higher-margin products.

INDEPENDENT AUDITORS' REVIEW REPORT

To the members of Buxly Paints Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Buxly Paints Limited (the Company) managing for the year ended June 30, 2026 in accordance with the requirements of Regulation No. 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2026.

Further, we highlight below instances of non-compliance with the requirements of the Regulations as reflected in the paragraph reference where these are stated in the Statement of Compliance:

Sr. No.	Paragraph reference	Description
1	19	The Board has not formed the sustainability committee and presently exercises oversight over the Company's Environmental, Social, and Governance (ESG) initiatives. In accordance with the applicable regulatory requirements, which will become effective from 01 July 2027, the Board affirms its commitment to ensuring full and timely compliance. <i>E.</i>

INDEPENDENT AUDITORS' REPORT

To the members of Buxly Paints Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Buxly Paints Limited (the Company)**, which comprise the statement of financial position as at **30 June 2026**, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2026 and of the loss and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. 

Following are the Key audit matters:

S. No.	Key audit matters	How the matter was addressed in our audit
(i)	Inventory existence and valuation	
	The valuation of inventory at the reporting date amounts to Rs. 91.836 million representing 21% of the Company's total current assets after considering allowance for inventory obsolescence amounting to Rs. 4.30 million as disclosed in note 10 with related policies in note 4.6 to the accompanying financial statements. The allowance for inventory obsolescence is calculated by taking into account the NRV of related inventories while mainly keeping in view the estimated selling price, forecasted inventories usage, forecasted sale volumes and product expiry dates. We have considered this area to be a key audit matter due to its materiality and significance in terms of judgments involved in determining the cost and net realizable value of inventory at the reporting date.	Our audit procedures over existence and valuation of stock in trade, amongst others, included the following: - assessed whether the Company's accounting policy for inventory valuation was in line with the applicable financial reporting standards; - observed inventory count at major locations at the year end to ascertain the condition and existence of inventory and reconciled physical inventory with inventory lists provided to ensure completeness of data; - reviewed the management's procedures for evaluating the NRV, tested on a sample basis to assess the NRV of the inventories and evaluated the adequacy of provisions for slow moving inventories at the year end; - assessed the appropriateness of identifying obsolete inventories. we also evaluated the historical accuracy of inventory allowances recognized by management by comparing actual losses to historical allowances, using a sample-based approach. Furthermore, we conducted tests to assess the accuracy of the ageing analysis of inventories on a sample basis. In addition, we examined the cost of goods using underlying invoices and expenses incurred in accordance with the inventory valuation method.

(ii) Valuation of trade debts	
At the reporting date, the Company has a significant balance of trade debts amounting to Rs. 284.927 million represents 64% of the Company's total current assets after considering impairment allowance under Expected Credit Loss (ECL) model of Rs. 30.209 million, as disclosed in note 11 with related policies in 4.5 and 4.13.4 . We considered recoverability of trade debts as a key audit matter due to significance of the amount and significant judgments made by the management regarding the recoverability of the trade debts.	Our audit procedures to assess the valuation of trade debts, amongst others, included the following: • obtained an understanding of procedures and system of the Company for recording and accounting for such type of financial assets; • obtained an understanding of the basis for the determination of provision required at the year end and the receivables collection process; • checked the accuracy of the data on test basis extracted from the Company's accounting system which is used to calculate the impairment allowance under ECL model.

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. 

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Mr. Adnan Rasheed.

2 BASIS OF PREPARATION

2.1 Accounting convention

These financial statements have been prepared under the "historical cost convention" except for financial instruments and leasehold land which are recognized at fair value. The financial statements except for cash flows information have been prepared under accrual basis of accounting.

2.2 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. Accounting and reporting standards applicable in Pakistan comprise of:

- IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of, directives and notifications issued under the Companies Act, 2017.

Where provisions of, directives and notifications issued under the Companies Act, 2017 differ from the IFRS Accounting Standards, the provisions of, directives and notifications issued under the Companies Act, 2017 have been followed.

2.3 Functional and presentation currency

These financial statements are presented in Pak Rupees, which is also the Company's functional currency. All figures have been rounded off to the nearest thousand of rupees, unless otherwise stated.

2.4 Reclassification and rearrangements

Corresponding figures have been reclassified and rearranged, wherever necessary, to reflect more appropriate presentation of events and transactions for the purpose of comparison. Appropriate disclosures are given in relevant notes in case of material reclassifications and rearrangements.

2.5 Use of estimates and judgments

The preparation of financial statements in conformity with the approved accounting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by the management in the application of approved accounting standards, as applicable in Pakistan, that have significant effect on the financial statements and estimates with a significant risk of material adjustment relates to :

- Estimated useful lives of property and equipment and measurement of revalued amounts (notes 4.1, 4.2 and 5)
- Recognition of taxation and deferred taxation (notes 4.9, 9 and 30)
- Provisions and contingencies (note 4.11 and note 21)
- Classification of investment properties (notes 4.3 and 6)
- Provision against trade debts and deposits (notes 4.5, 11.1 and 12.1)
- Impairment (note 4.17)
- Stock in trade (notes 4.6 and 10)

3 INITIAL APPLICATION OF A STANDARD, AMENDMENT OR AN INTERPRETATION TO AN EXISTING STANDARD AND FORTHCOMING REQUIREMENTS

a) Standards and interpretations that became effective but not relevant to the Company

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 1, 2025. However, these do not have any significant impact on the Company's financial statements except as disclosed in note 4 to these financial statements.

b) Forthcoming requirements not effective in current year and not considered relevant:

The following standards (revised or amended) and interpretations became effective for the annual periods beginning on or after the mentioned dates but are either not relevant or do not have any material effect on the Financial Statements of the Company other than increased disclosures in certain cases:

	Effective date (annual reporting periods beginning on or after)
- IAS 7 - Statement of Cash Flows (Amendments)	January 1, 2026
- IAS 21 - The Effects of Changes in Foreign Exchange Rates (Amendments)	January 1, 2026
- IAS 28 - Investments in Associates and Joint Ventures (Amendments)	January 1, 2026
- IFRS 10 - Consolidated Financial Statements (Amendments)	January 1, 2026
- IFRS 7 - Financial Instruments: Disclosures (Amendments)	January 1, 2027
- IFRS 9 - Financial Instruments (Amendments)	January 1, 2027
- IFRS 17 - Insurance Contracts (Amendments)	January 1, 2027
- IFRS 18 – Presentation and Disclosure in Financial Statements	January 1, 2027
- IFRS 19 – Subsidiaries without Public Accountability: Disclosures	January 1, 2027
c) Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan as at 30 June 2026:	

- IFRS 1 – First Time Adoption of International Financial Reporting Standards
- IFRIC 12 – Service Concession Arrangement
- IFRS 20 – Regulatory Assets and Regulatory Liabilities

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies set out below have been applied consistently to all periods presented in these financial statements.

4.1 Property and equipment

Operating fixed assets, except leasehold land, are measured at cost less accumulated depreciation and impairment loss, if any. Leasehold land is stated at revalued amount. Cost includes expenditures that are directly attributable to the acquisition of the asset.

Depreciation on all property and equipment except land is charged on the reducing balance method at the rates specified in note 5.

Depreciation methods, useful lives and residual values of each part of property and equipment that is significant in relation to the total cost of the asset are reviewed, and adjusted if appropriate, at each statement of financial position date.

Depreciation on additions to property and equipment is charged from the month the asset is available for use while no depreciation is charged from the month the asset is disposed off.

The Company assesses at each statement of financial position date whether there is any indication that property and equipment may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount.

Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in the statement of profit or loss. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to the statement of profit or loss during the period in which they are incurred.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense in the statement of profit or loss.

4.2 Accounting for right-of-use (ROU) assets and leases

ROU asset

The Company recognizes a ROU asset and related lease liability at the lease commencement date. The ROU asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of the costs to be incurred to dismantle and remove the underlying asset or to restore the underlying asset or the site on which the asset is located.

The ROU asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of useful life of the ROU asset or the end of the lease term. The estimated useful life of ROU asset is determined on the same basis as those operating tangible assets. In addition, the ROU asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Lease liability

The lease liability is initially measured at the present value of the lease payments over the period of lease term and that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by the lease payment made. It is remeasured when there is a change in future lease payments arising from a change in rate or a change in the terms of the lease arrangement.

The Company applies judgment to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and ROU asset recognized.

4.3 Investment properties

Investment properties are accounted for under cost model and are stated at cost less accumulated depreciation and impairment loss, if any. Depreciation on office building is charged to the statement of profit or loss by applying the reducing balance method at the rate of 5% per annum after taking into account residual value, if any. Depreciation on addition is charged from the month the asset is available for use while no depreciation is charged from the month the asset is disposed off. Depreciation methods, useful lives and residual values of each part of investment property that is significant in relation to the total cost of the asset are reviewed, and adjusted if appropriate, at each statement of financial position date. Depreciation of leasehold land is suspended since financial year ended 30 June 2012 in accordance with the revised requirements of IAS 17.

Gains or losses on sale of investment properties are charged to the statement profit or loss in the period in which they arise.

4.4 Staff retirement benefits

a) Defined contribution plan

The Company operates a provident fund scheme for its employees. Equal monthly contributions are made, both by the Company and the employees to the fund at the rate of 8.33% of the basic salary.

b) Compensated absences

The Company had been accounting for all accumulated compensated absences, when employees render services that increase their entitlement to future compensated absences. Accrual was made for employees compensated absences on the basis of last drawn pay. However, the policy has been discontinued.

4.5 Trade debts

These are initially recognised when these are originated and measured at fair value of consideration receivable and subsequently measured at amortized cost. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss (ECL).

4.6 Stock in trade

Stock of raw and packing materials, except for those in transit, work in process and finished goods are valued principally at the lower of weighted average cost and net realizable value. Cost of work in process and finished goods comprises cost of direct materials, labor and appropriate manufacturing overheads.

Materials in transit are stated at cost comprising invoice value plus other charges paid thereon.

Net realizable value signifies the estimated selling price in the ordinary course of business less estimated costs necessary to be incurred in order to make a sale.

4.7 Revenue recognition

- Revenue from sale of goods is recognized when control of goods is transferred to customers.
- Royalty and rent income is recognized on an accrual basis in accordance with the substance of the relevant agreement.
- Interest income on bank deposits is recognized on time proportion basis using the effective interest method.

4.8 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less. Short term finance facilities availed by the Company (if any), which are payable on demand and form an integral part of the Company's cash management are included as part of cash and cash equivalents for the purpose of statement of cash flows.

4.9 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income, in which case it is recognised in equity or in other comprehensive income respectively. In making the estimates for income taxes currently payable by the Company, the management considers the current income tax law and the decisions of appellate authorities on certain issues in the past.

a) Current

The charge for current taxation is based on the taxable income for the year, determined in accordance with the prevailing law for taxation on income, using prevailing tax rates after taking into account tax credits and rebates available, if any. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

b) Deferred

Deferred tax is provided using liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities, using the current rates of taxation. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred tax is charged to income except in case of items credited or charged to equity in which case it is included in the equity.

c) Levies

Tax charged under the Income Tax Ordinance 2001 which is not based on taxable income or any amount paid/ payable in excess of the calculation based on taxable income or any minimum tax which is not adjustable against future income tax liability is classified as levy in the statement of profit or loss and other comprehensive income as these levies fall under the scope of IFRIC 21/ IAS 37.

4.10 Borrowings

Interest bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, these are stated at amortized cost with any difference between cost and redemption value being recognized in the statement of profit or loss over the period of the borrowings on an effective interest basis.

4.11 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each statement of financial position date and adjusted to reflect current best estimate.

4.12 Trade and other payables

Financial liabilities are initially recognized at fair value plus directly attributable cost, if any, and subsequently at amortized cost using effective interest rate method.

Other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received.

4.13 Financial instruments

Recognition and measurement

Financial assets and liabilities are recognized, when the Company becomes a party to the contractual provisions of the instrument and derecognized when the Company loses control of the contractual rights to receive cash flows from the assets that comprise the financial asset or the rights have been transferred and the Company has transferred substantially all the risks and rewards of ownership or the enterprise loses control of the contractual rights that comprise financial assets or a portion of financial assets. In case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired.

Financial assets are long term investments, short term investments, trade and other receivables, advances adjustable in cash and cash and bank balances. The Company derecognizes a financial asset or a portion of financial asset when, and only when, the right to receive the cash flows from the assets have been expired or have been transferred; and the Company has transferred substantially all the risks and rewards of ownership or the enterprise loses control of the contractual rights that comprise the financial assets or a portion of financial assets.

The Company has classified its financial assets based on the requirements as set out in IFRS-9 'Financial Instruments'. IFRS 9 sets out the requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items and contains three principal classifications categories of financial assets: measured at amortized cost, fair value through other comprehensive income and fair value through profit or loss. The classification of financial assets are generally based on the business model in which the financial asset is managed and its contractual cash flow characteristics.

4.13.1 Financial assets

(a) Financial asset at amortized cost

A financial asset shall be measured at amortized cost if both of the following conditions are met:

- i) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and;
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

(b) Financial asset at fair value through other comprehensive income

A financial asset shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- i) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and;
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

(c) Financial asset at fair value through profit or loss

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income.

Recognition and measurement

Financial assets at initial recognition are measured at its fair value of the consideration given. Subsequent to initial recognition, financial assets shall be classified at amortized cost using effective interest method, fair value through other comprehensive income with changes in fair value recognized in other comprehensive income and fair value through profit or loss with changes in fair value recognized in the statement of profit or loss.

4.13.2 Financial liabilities

Financial liabilities are recognized according to the substance of the contractual arrangements entered into. At the time of initial recognition, all financial liabilities shall be measured at fair value plus or minus transaction cost that are directly attributable to the issue of a financial liability. Financial liabilities shall subsequently be measured at amortized cost. Significant financial liabilities are due to related party, trade and other payables.

Any gain or loss on subsequent remeasurement to fair value of financial assets and financial liabilities is taken to the statement of profit or loss in the year in which it arises.

Offsetting of financial assets and financial liabilities

A financial asset and liability is offset against each other and the net amount is reported in the statement of financial position if the Company has legally enforceable right to set off the recognized amount and intends either to settle on net basis or realize the asset and settle the liability simultaneously.

4.13.3 Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the statement of profit or loss.

4.13.4 Impairment

Financial assets

A financial asset is impaired if the credit risk on that financial asset has increased significantly since the initial recognition. Loss allowance for ECL on a financial asset is recognized to account for impairment.

If a financial asset has low credit risk at the date of initial application of IFRS 9, then the Company has assumed that the credit risk on the asset had not increased significantly since its initial recognition.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Non-financial assets

The Company assesses at each statement of financial position date, whether there is any indication that assets may be impaired. If such an indication exists, the carrying amount of such assets is reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed their respective recoverable amounts, assets are written down to their recoverable amount and resulting impairment loss is recognized in the statement of profit or loss. The recoverable amount is higher of an asset's fair value less costs to sell and value in use.

Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of carrying amount of the asset had there been no impairment loss. A reversal of the impairment loss is recognized in the statement of profit or loss.

4.14 Foreign currencies

All monetary assets and liabilities in foreign currencies are translated into rupees at exchange rates prevailing at the statement of financial position date. Transactions in foreign currencies are translated into rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into rupees at exchange rates prevailing at the date of transaction.

4.15 Dividend

Dividend distribution to the Company's shareholders is recognized as a liability in the period in which the dividends are approved.

4.16 Earnings per share

The Company presents basic and diluted earnings per shares (EPS) data. Basic EPS is calculated by dividing the profit or loss attributable to shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to shareholders and the weighted average number of ordinary shares outstanding, adjusted for the effects of all dilutive potential ordinary shares.

4.17 Impairment of other assets

The carrying amounts of the Company's assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment loss. If any such indication exists, the assets recoverable amount is estimated and if the carrying amount of the asset is in excess of its recoverable amount, impairment loss is recognised as an expense to the extent carrying amount exceed the recoverable amount.

35.4 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral.

35.4.1 Concentration of credit risk

Concentration of credit arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by the changes in economics, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Company's performance for developments affecting a particular industry. The Company believes that it is not exposed to any major concentration of credit risk.

Exposure to credit risk

Credit risk represents the accounting loss that would be recognised at the reporting date if counter parties fail to perform as contracted and arise principally from loans and advances, trade debts, advances and deposits, security deposits and balances with banks.

To manage exposure to credit risk in respect of trade receivables, management performs credit reviews taking into account the customer's financial position, past experience and other relevant factors. Where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period of 90 days to customers to reduce the credit risk.

The Company's policy is to enter into financial instrument contract by following internal guidelines such as approving counterparties and approving credits.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date was as follows:

		2026	2025
	Note	(Rupees in '000)	
Long term loans and advances	7	10,469	9,138
Long term security deposits		361	361
Trade debts	11	284,121	273,672
Advances and deposits	12	3,976	3,239
Term deposit receipts	14	4,790	150
Markup receivable		348	20
Bank balances	15	29,148	9,443
		333,213	296,023

Credit quality

The Company monitors the credit quality of its financial assets with reference to historical performance of such assets and where available external credit ratings. The carrying values of trade debts which are neither past due nor impaired are given as below:

	30-Jun-26		30-Jun-25	
	Gross (Rupees in '000)	Impairment	Gross (Rupees in '000)	Impairment
Past due 0 - 30 days	79,875	-	88,927	-
Past due 31 - 60 days	35,730	-	70,584	-
Past due 61 - 180 days	147,840	-	100,737	-
More than 180 days	51,691	31,015	40,358	26,934
	315,136	31,015	300,606	26,934

The movement in the account for provision for impairment of trade debts is given in note no. 11.1.

The credit quality of the Company's major banks is assessed with reference to external credit ratings which are as follows:

Bank	Rating Agency	Rating		2026	2025
		Short term	Long term	(Rupees in '000)	
National Bank of Pakistan	PACRA	A1+	AAA	2,020	-
JS Bank Limited	PACRA	A1+	AA	1,989	9,086

Bank AL Habib Limited	PACRA	A1+	AAA	72	49
United Bank Limited	VIS	A1+	AAA	24,759	-
				29,148	9,443

35.5 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with the financial liabilities as they fall due.

Exposure to liquidity risk

The Company is exposed to liquidity risk in respect of its financial liabilities. The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

	2026				
	Carrying amount	Contractual cash flows	Three months or less	Three months to one year	More than one year
	----- (Rupees in '000) -----

	497,208	497,208	487,030	10,178	-

	2025				
	Carrying amount	Contractual cash flows	Three months or less	Three months to one year	More than one year
	------(Rupees in '000)-----				
Financial liabilities at amortised cost					
Lease liability	526	566	284	282	-
Short term borrowings	83,895	83,895	83,895	-	-
Markup accrued	1,517	1,517	1,517	-	-
Trade and other payables	354,774	354,774	353,178	1,596	-
Unpaid dividend	217	217	-	217	-
Unclaimed dividend	102	102	-	102	-
	441,031	441,071	438,874	2,197	-

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company meets these requirements by financial assistance available from the associated company as and when the need arises for the current year.

The contractual cash flows relating to the above financial liabilities have been determined on the basis of applicable markup rates as at 30 June 2026, if any.

35.6 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

The Company is exposed to three types of market risks: currency risk, interest rate risk and other price risk.

35.6.1 Currency risk

Currency risk is the risk that fair value or future cash flows of a financial instrument, will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly where receivables and payables exist due to foreign currency transactions.

As the Company does not have foreign currency debtors or foreign currency bank accounts, imports or exports therefore there is no exposure of the Company to foreign currency risk.

35.6.2 Interest rate risk

Interest/ markup rate risk arises from the possibility of changes in interest/ markup rates which may effect the value of financial instruments held by the Company and its profit or loss.

Exposure to interest rate risk

At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

	Effective rate		Carrying amount	
	2026	2025	2026	2025
	(in percentage)		(Rupees in '000)	
Financial assets - fixed rate instruments				
Term deposit receipts	8.60 to 10.50	16.10 to 20.25	4,790	150
Financial liabilities - variable rate instruments				
Lease liability	-	13.14 to 21.24	-	526
Short term borrowings	N/A*	14.14 to 22.24	50,000	83,895
			50,000	84,421

*The facility was disbursed on 30 June 2026, thus no markup was accrued during current year.

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect the statement of profit or loss.

Cash flow sensitivity analysis for variable rate instruments

If KIBOR had been 1% (lower)/ higher with all other variables held constant, the impact on the profit before tax for the year would have been higher/ (lower) by Rs. 0.045 million (2025: Rs. 0.084 million).

35.6.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is not exposed to any other price risk.

35.7 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Company's operations either internally within the Company or externally at the Company's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behaviour. Operational risks arise from all of the Company's activities.

The Company's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns for investors.

The primary responsibility for the development and implementation of controls over operational risk rests with the Board. This responsibility encompasses the controls in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions; compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- ethical and business standards;
- risk mitigation, including insurance where this is effective.

Senior management ensures that the Company's staff have adequate training and experience and fosters effective communication related to operational risk management.

35.8 Fair value of financial instruments

The carrying values of the financial assets and financial liabilities are approximately equal to their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair value is determined on the basis of objective evidence at each reporting date.

Fair value hierarchy:

The company is required to classify financial instruments using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted market price (unadjusted) in an active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

36 SHARIAH RELATED DISCLOSURE

During the period, the Securities and Exchange Commission of Pakistan (SECP) amended Item VII of the Fourth Schedule to the Companies Act, 2017, through the issuance of S.R.O. 1278(I)/2024, whereby companies are required to present specified Shariah-related disclosures separately in the financial statements. 37. CAPITAL MANAGEMENT

The objective of the Company when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to the shareholders or issue new shares.
